A bar chart titled 'Time spent' on the y-axis and 'Date' on the x-axis. The y-axis ranges from 0 to 25 with increments of 5. The x-axis shows dates from Nov 6 2022 to Dec 11. A legend indicates that blue bars represent 'Context Switches'. The chart shows a significant peak in context switches around November 13-14, with values reaching approximately 26. Other notable peaks occur on November 10 (approx. 22) and November 28 (approx. 12). The data shows a general downward trend after the initial peak, with a small secondary peak around November 28.

| Date | Context Switches |
|-------------|------------------|
| Nov 6 2022 | 22 |
| Nov 7 2022 | 9 |
| Nov 8 2022 | 10 |
| Nov 9 2022 | 17 |
